Unfortunately, in the final version of our article the Acknowledgments were missing. As for the authors it is important to express their gratitude please find the Acknowledgments below:

The research leading to these results has received funding from the European Union Seventh Framework Programme (FP7/2007-2013), FP7 - REGPOT - 2009 - 1, under grant agreement No. 245479. The first author would like to acknowledge the support received through the Bulgarian NSF Grant DCVP 02/1 and the support by the Polish Ministry of Science and Higher Education - Grant No 1471-1/7.PR UE/2010/7 is acknowledged by the second, third and fourth author. The authors highly appreciate the kind help of Prof. Barbara Surowska and Dr. Jaroslaw Bienias in the preparation of composite samples with inclusions. The beams were manufactured in the Composite Laboratory of the Department of Materials Engineering at the Lublin University of Technology.
